

Statement of Work

Client: PathoNet Inc.

Service Provider: Proscia, Inc.

Date: January 5, 2024

Project Overview:

Deployment of Concentriq LS for early-phase oncology trial workflows, including embedding infrastructure and AI-powered biomarker detection modules.

Timeline:

- Project Kickoff: Jan 20, 2024
- Full Deployment: April 30, 2024

Deliverables:

- Integration with client-owned image repository
- Embeddings-based model training pipeline
- Performance dashboard for client stakeholders

Technical Notes:

- GPU: NVIDIA T4 x 4 (on AWS EC2)
- Data warehouse integration with Snowflake
- Real-time inference using Proscia AI Toolkit APIs

Support Agreement:

Monthly check-ins + quarterly performance reviews
